## Education

---

|                                                                                                                                                  |             |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>VNR Vignana Jyothi Institute of Engineering and Technology</b><br>B.Tech in Computer Science and Engineering (Data Science)<br>CGPA: 7.6 / 10 | 2023 – 2027 |
| <b>SR Junior College</b><br>Intermediate (MPC) – 93.4%                                                                                           | 2021 – 2023 |
| <b>Vijay High School</b><br>SSC – GPA: 10.0 / 10                                                                                                 | 2021        |

## Technical Skills

---

**Programming:** Java, Python, C  
**Web Technologies:** HTML, CSS, FastAPI  
**Databases:** SQL, MongoDB, ChromaDB  
**Machine Learning:** XGBoost  
**Data Visualization:** Power BI, Tableau  
**Developer Tools:** Git, GitHub, VS Code

## Projects

---

**ScrapeIQ** | *FastAPI, ChromaDB, Ollama, Gemini, MongoDB* [GitHub](#)

- Developed an AI-powered web intelligence platform that extracts website content and answers user queries using Retrieval-Augmented Generation (RAG).
- Integrated local (Ollama Llama 3.2) and cloud (Google Gemini) language models with runtime model switching and sentiment analysis using VADER.
- Designed an asynchronous scraping and embedding pipeline with MongoDB-based session persistence.

**WeatherGuard AI** | *FastAPI, XGBoost* [GitHub](#)

- Developed a real-time disaster prediction platform integrating live weather APIs with historical climate data.
- Trained an XGBoost model to classify disaster risk into four severity levels using weather parameters.
- Implemented automated multilingual SMS and voice alerts for high-risk predictions and a real-time monitoring dashboard.

## Achievements

---

- Secured an EAMCET Rank of **4065** among more than 2 lakh candidates.
- Achieved a **LeetCode Contest Rating of 1512**.
- Qualified for **Round 2** of the **Smart India Hackathon (SIH)**.

## Certifications

---

- Data Structures and Algorithms – Smart Interviews
- Python for Data Science – Infosys Springboard
- Data Visualization with Tableau (59 Hours) – Udemy

## Leadership & Activities

---

- Design Team Member, VJDQ Club, VNRVJIET.
